About me:

I am a junior Electrical and Computer Engineer with a BSc degree in Computer Engineering specialization. Throughout my academic and professional career, I have honed my skills in Python, C, Database Development, Git and GitHub, Data Communication and Computer Networking and Internet infrastructure designing. I also hold a technical diploma in Information Communication Technology, making me a well-rounded and versatile professional. Currently, I am working on software engineering, with the goal of developing my knowledge and expertise in software development and digital hardware system programming. As I embark on my search for a new role, I am excited about the opportunities that lie ahead and look forward to leveraging my skills to make a meaningful contribution to your team.
